

I have had XM radio for a while now. I have enjoyed every minute of it and have no complaints about it. This is obviously not what you want to hear because I'm sure you are aware of all the benefits from XM radio. The issue to me is if you ban XM radio on these issues what is next? There is a really horrible slippery slope that I foresee in the future if you ban XM now. After this you will have to ban some of HBO or Showtime. I'm a very big supporter of XM radio and ask you to let us have our God givin right.  
Thanks,
